Objective:

A self-driven passionate individual with having around 3 years of industry experience in designing, developing and enhancing technical solutions for enterprise applications as high available, secure, robust systems, using market ranked technologies and tools.

- ✓ Strong knowledge in developing, enhancing, designing and implementing web applications.
- ✓ Experienced in building all phases of the software development lifecycle.
- ✓ Expertise in Back-end technologies such as Asp.net
- ✓ Strong experience in using Web Services and APIs.
- ✓ Expertise in Front-end technologies like Angular, TypeScript, HTML and CSS.
- ✓ Familiar with React JS.
- ✓ Having good analytical skills, problem solving and good communication skills.
- ✓ Familiar with unit testing, QA processes and Live releases.
- ✓ Excellent client handling and interpersonal skills with positive work ethics
- ✓ Extensive experience in complete **Software Development Life Cycle** (**SDLC**) including System Requirements Collection, Architecture, Design, Coding, Development, Testing

Skills:

- ✓ Back-End Technologies : C#, ASP.Net WebAPI, MVC, RestAPI, WCF
- ✓ Front-End Technologies: HTML5, CSS, Bootstrap, JavaScript, TypeScript, Angular, ReactJS
- ✓ Databases   : My SQL, Oracle
- ✓ Work Methodologies   : Agile, Scrum, Waterfall
- ✓ Version Control Tools : Git, GitHub, Bitbucket

Experience:

Student Consultant | Ross Video   Apr 2020 - Aug 2020
- ✓ Consultancy project was to perform a technical competitive analysis of APS (Absolute Positioning Systems) used in the market.
- ✓ This was with an intention of exploring the possibilities of integration with robotic systems of Ross Video.
- ✓ To understand the needs of the client to recommend a feasible solution for their current system

Project Engineer | Wipro Pvt. Ltd.   Mar 2017 - Aug 2019

Project 1: AMG (Applications Management Group)
- ✓ Developed a flexible and well-structured front-end architecture, along with the APIs.
- ✓ Designed and developed Web-based applications using core C# concepts and MVC, WCF and ASP.Net WebAPI architecture.
- ✓ Constructed new high-responsive **web**-based user interfaces using Angular 4.

- ✓ Tested applications and websites completely to assess user experience.
- ✓ Involved in managing and enhancing end-to-end IT Infrastructure.
- ✓ Worked collaboratively in cross-functional teams on end-to-end system integration and peer code reviews.

Project 2: LBG (Lloyds Banking Group)

- ✓ Revamped applications based on Centura to Dot-Net based applications.
- ✓ Integrated, tested and developed C# server-side activities.
- ✓ Redesigned applications using HTML, CSS, Javascript, Typescript and other front-end technologies.
- ✓ Built several user-interfaces using Angular.
- ✓ Used Git to co-ordinate and collaborate within the development team.
- ✓ Implemented HTTP Web Services.

Project 3: US Bank

- ✓ Developed new features to enhance performance of existing application using Angular 4 and WebAPI.
- ✓ Produced user-friendly software using Angular, MVC, ASP.Net according to the agreed plans and timelines.
- ✓ Analyzed client requirements and designed development templates.
- ✓ Acquired knowledge in version control systems such as Git.
- ✓ Collaborated with experienced team members to conduct root cause analysis of issues, review New and existing code and/or perform unit testing.
- ✓ Involved directly in unit testing and code review.
- ✓ Participated in scrum calls and client meetings to make good technical decisions.

Achievements:

Project 1:
- ✓ Awardee of " A star of the quarter" for being able fix maximum number of production issues.
- ✓ Awarded to be the best team of the year, for developing and maintaining applications under AMG and for the successful Live Releases.

Project 2:
- ✓ Application's functionality was improved by 13% by making changes in the service requests and henceforth.
- ✓ Enhanced the features of existing applications with the deep understanding of customer needs and worked beyond the requirements of the client.

Software Intern | Amrockey Technologies   Jun 2016 - Dec 2016

- ✓ Completed coding boot camp about website building and relevant technologies.
- ✓ Attended several workshops and training sessions of UI design and development.
- ✓ Involved with senior engineers and so as to understand the current applications.
- ✓ Involved in coding and debugging software applciations and experimenting with design elements.

Education:

- ✓ Master's in Engineering Management from University of Ottawa in 2020
- ✓ Bachelor's in Information Technology from Sapthagiri College of Engineering in 2016

Certifications:

- ✓ Completed several courses of web development on Udemy.
- ✓ Attended WebEx of various courses such as Angular, JavaScript and HTML offered by Wipro Pvt. Ltd.

Activities:

- ✓ Volunteered for more than sixteen activities of the team Volunteered for more than sixteen activities of the team VFC- Volunteer For a Cause.
- ✓ Clown of a team called Humanitario Clowns Bengaluru – a team that works with cancer habitants and a A life skills trainer for undergrad students.
- ✓ Part of a company called Platon Pvt. Ltd. – a team of like-minded individuals working to bring a drastic change regarding human skills and perspectives.
- ✓ I worked as a life skills trainer for two years for the students at Sapthagiri College of Engineering.
